ZOOX

THIS IS ZOOX

We've created a purpose-built robotaxi that gives the world a better way to ride.

ABOUT US

Zoox was founded in 2014 to build a safer, cleaner, and more enjoyable future on the road. To achieve that goal, the team created a whole new form of mobility.

We've been working to make autonomous ride-hailing a reality for over a decade. Because we know how transformative it will be.

In 2020, we joined forces with Amazon to realize this vision and, in the process, solidified a leading role in the autonomous driving industry.

Led by our CEO Aicha Evans and Co-Founder and CTO Jesse Levinson, Zoox is combining advanced AI and precise engineering to deliver a safe and comfortable ride, every time.

Today, you'll see the Zoox robotaxi driving on public roads in several cities across the U.S. We're launching an autonomous ride hail service and can't wait for more people to experience the magic of Zoox.

Fast Facts

HEADQUARTERS

1149 Chess Drive, Foster City, CA

EXECUTIVES

Chief Executive Officer — **Aicha Evans**

Co-Founder & Chief Technology Officer — **Jesse Levinson**

Chief Information Officer — **Ravi Naik**

Chief People Officer — **Tulasi Siddhartha**

General Counsel — **Chris Nalevanko**

SVP of Hardware — **Nelson Pedreiro**

VP of Autonomy Software — **Marc Wimmershoff**

VP of Software Platforms & Product — **Ravi Gopalan**

VP of Program Management Office — **Kailash Sharma**

VP of Communications & Marketing — **Carly Wyatt**

VP of Supply Chain, Quality & Reliability — **Bruce Baumgartner**

VP of Vehicle Development — **Andy Piper**

VP of Manufacturing Operations — **Corrado Lanzone**

VP of System Design and Mission Assurance — **Qi Hommes**

VP of Software Systems — **Miguel Sainz**

EMPLOYEES

We have a hand-picked team of over 3,000 interdisciplinary employees.

OUR PARENT COMPANY

Zoox is an independent subsidiary of Amazon.com, Inc.

WHERE TO FIND ZOOX

We are actively driving our purpose-built robotaxi in Foster City and San Francisco, California and Las Vegas, Nevada.

We have a live ridehailing service in Las Vegas that will also soon come to San Francisco.

The Zoox testing fleet is currently operating throughout the San Francisco Bay Area, Las Vegas, Seattle, Austin, Miami, Los Angeles, Atlanta and Washington D.C.

Milestones

2014

Zoox is founded by Jesse Levinson and Tim Kentley-Klay.

2015

We built and tested our first autonomous prototype.

2016

Zoox receives authority from the State of California to test autonomous vehicles with safety drivers.

2017

Zoox finishes an autonomous loop with a testing fleet in downtown San Francisco and proceeds to expand testing in the city.

2018

Zoox receives a California permit to transport passengers autonomously with a safety driver.

2019

Zoox welcomes Aicha Evans as its CEO.

Zoox begins driving the testing fleet in Las Vegas.

2020

Zoox joins Amazon as an independently operated subsidiary and unveils its purpose-built robotaxi with no steering wheel or driver's seat.

2021

Zoox announces a testing expansion to Seattle, WA and opens an office in the city.

2022

Zoox acquires robotic company Strio.AI and opens a Boston office.

2023

Zoox becomes the first company in history to operate a purpose-built robotaxi on public roads in Foster City, California and Las Vegas, Nevada.

2024

Zoox begins testing the purpose-built robotaxi in San Francisco and expands driving in Nevada to include the Las Vegas Strip.

Zoox expands its testing fleet operations to Austin and Miami.

2025

Zoox opens the first-ever serial production facility in the U.S. dedicated to purpose-built robotaxis.

Zoox expands its testing fleet operations to Los Angeles, Atlanta, and Washington D.C.

Zoox launches its autonomous ride-hailing service in Las Vegas!

Our Name

The name "Zoox" is inspired by Zooxanthellae: mobile, algae-like organisms that are powered by photosynthesis. Zooxanthellae thrive in mutually beneficial relationships with coral, providing an essential source of energy that supports biodiverse coral reef ecosystems. Similarly, Zoox has created a sustainably powered mobility service that will enhance life in our cities while maintaining harmony and balance with the environment.

Our Values

WE ARE MISSION-DRIVEN

We are ambitious and determined in our pursuit of autonomous mobility. We rise to the challenge, persevere in the face of adversity, and go the extra mile to succeed.

WE ARE INQUISITIVE

We ask questions and are always learning. We seek the perspective of others, especially those that differ from our own. We value intellectual rigor, unique ideas, humility, and new ways of seeing the world.

WE TRUST EACH OTHER

We are transparent, honest, and accountable. We operate with integrity and authenticity. We extend trust to others and work hard to maintain it.

WE ARE ONE ZOOX

We leverage each other's strengths and eliminate barriers to build solutions as a team. We go further together by championing what is best for Zoox.
