

PERCEPTO

End-to-end autonomous visual site inspection and monitoring

Leading the revolution
of unmanned inspection of
industrial infrastructure

Improve safety, productivity and sustainability

Minimize risks
and incidents

Increase efficiency,
reduce downtime

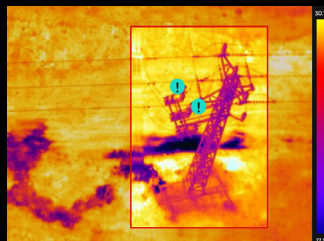

ESG positive
impact

Use cases

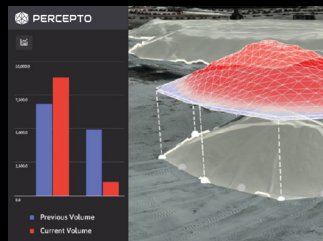

- Visual inspection

- Thermal inspection

- 3D modeling /
volumetrics

- Gas detection

- Environmental
monitoring

- Construction
monitoring

- Security

- Emergency
response

Percepto AIM

Autonomous inspection & monitoring software solution

○ Autonomous inspection rounds

○ Unified visual data

○ AI-powered insights

○ Remote operations

Percepto Air

The most advanced drone-in-a-box portfolio

Percepto Air Max

Maximum performance,
maximum versatility

Percepto Air Max OGI

Autonomous gas
detection solution
