

About Fotokite

Fotokite designs and builds fully autonomous, persistent, and reliable combined hardware & software systems that provide invaluable overview information to firefighters and public safety teams to help them manage complex, safety-critical situations.

Fotokite has offices in Zurich CH, Syracuse NY, and Boulder CO and is backed by Credit Suisse Entrepreneur Capital, Sony Group Corporation, Swisscanto Invest, MSA Technology LLC, Qualcomm Ventures, and 360 Capital Partners. Fotokite is the IF Gold Design Award 2021 winner, 2021 Swiss Design Prize Winner, Horizon 2020 Grant recipient, GENIUS NY 2018 1st Prize winner, 2017 euRobotics Tech Transfer Award winner, 2015 Qualcomm European Qprize winner, and has been featured on the TED stage. Fotokite's core technology was born at the Flying Machine Arena and spun off from ETH Zurich in 2014.
