**Power On**

Press and hold the power button for 5 seconds to turn it on.

2

**Control K1 with Voice Commands**

Always start with the wake words for each command. Say, “**Hey K One.**”
...wait for K1 to respond, “**I'm here.**”

pause
then say

**Double
Punch**

then

**Hand
Stand**

then

**Lay
Face
Down**

then

**Say
Hello**

K1 PRO has 80 Voice Commands. K1 has 40 Voice Commands.
See K-One mobile app for a list of voice commands.

3

**Connect Mobile Device to K1**

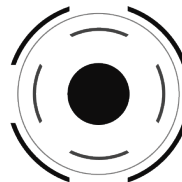

Download, register, and sign into the K-One mobile app with Bluetooth enabled. Bring mobile device near K1.
Click connect on the **main screen** of the app.

Connect

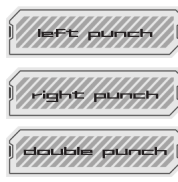

4

**Remote control**

Make K1 walk with joystick controls.
Make K1 Punch with joystick buttons.

JOYSTICK

ROBOT
ACTIONS

5

**Go Program**

Program K1 by recording K1 pose positions, or with block-based graphical programming.

6

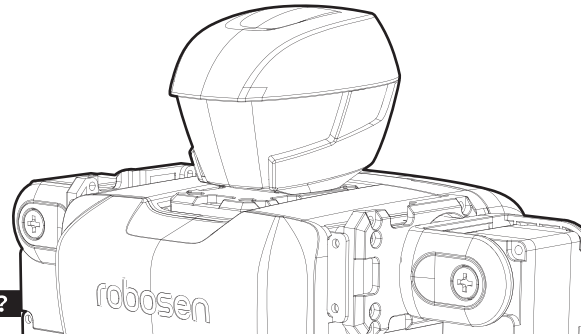

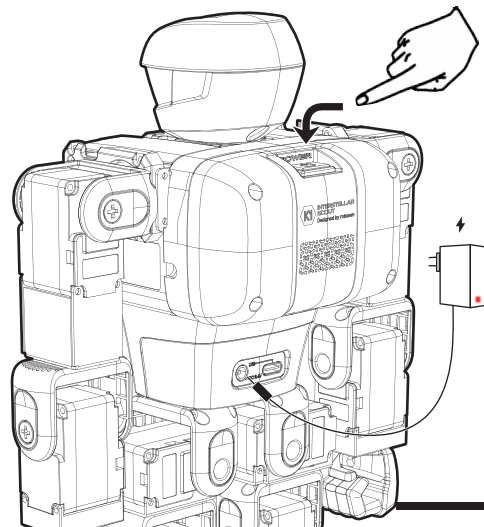

**Actions**

Make K1 perform thousands of possible actions.

7

**Robosen Hub**

Download robot actions from the robosen hub created by robosen or by the community users or share your creations by uploading them to the robosen hub.

快速使用说明
