

Seegrid Software License Terms and Conditions

Background. Seegrid Corporation ("Seegrid") has developed certain computer programs, including embedded vehicle software and vehicle supervisor and control software for use with Seegrid or third-party hardware products or both, and its related Documentation (collectively, the "Software"). Seegrid desires to license and provide the Software, as applicable, to the licensee (referred to as "Licensee" or "It") accepting these Software License Terms and Conditions ("License") via a purchase order, Seegrid online order or via any other Seegrid or Seegrid authorized reseller's agreement, invoice or order incorporating this License (collectively, the "Incorporating Agreement"). Licensee's use of the Software shall be deemed acceptance of this License. This License applies to the use of such Software and any related services by Licensee and the license and provision of such Software to Licensee by Seegrid or a Seegrid authorized reseller. Seegrid updated this License on October 4, 2023, and is effective between Licensee and Seegrid as of the date of Licensee's acceptance of this License. Seegrid and Licensee are each a "Party" hereunder or collectively the "Parties."

In consideration of the mutual promises contained herein, Seegrid and Licensee agree as follows:

1. Definitions

- a. **"Updates"** shall mean any release, revision, enhancement, modification, or improvement to the Software (which may include improvement in the function of the Software) provided by Seegrid pursuant to a separate Software support, maintenance, or similar agreement with Seegrid or a Seegrid authorized reseller.
- b. **"Derivative Works"** shall mean a work based on the Software, such as a revision, enhancement, modification, translation, abridgment, condensation, expansion, or any other form in which the Software may be recast or transformed. A Derivative Work shall also include any compilation incorporating any portion of the Software.
- c. **"Documentation"** means all operator, user, installation, or support instructions, manuals, release notes, documentation, specifications, system designs, security bulletins, technical notes, feature specifications or other materials that describe the functionality, installation, testing, operation, use, maintenance, support, technical or other components, features or requirements of the Software delivered or made available by Seegrid or a Seegrid authorized reseller provided at any time and in whatever form.
- d. **"Raw Data"** shall mean data emitted from vehicle sensors that have not been processed by Seegrid and includes, but are not limited to, camera-data, LiDAR, odometry, battery state of charge, and other sensor outputs.
- e. **"Event Data"** shall mean all data generated or derived by Seegrid's processes, proprietary algorithms, and other intellectual property that is a representation of the state of the vehicle as it conducts operations; or new data resulting from the analysis, extrapolation, combination, transformation or encoding of one or more elements of Raw Data into intermediate and final data elements.

2. Software License

- a. **Grant.** Subject to the terms and restrictions set forth in this License and the applicable Software Documentation, Seegrid hereby grants to Licensee a non-exclusive and non-transferable license to use the Software solely in connection with its internal business purposes in Licensee's facilities only. Certain Software (such as the embedded vehicle software) is for use only in connection with Licensee's use of the Seegrid vision-guided vehicles. Certain Software is provided on a term or subscription basis and certain Software is provided on a perpetual license basis, in each case as more fully set forth in the Incorporating Agreement or as set forth in the Documentation. In addition, Seegrid or a Seegrid authorized reseller may provide hosted or other cloud-based

services in connection with the Software, as separately documented (including as to fees, term, etc.) between Licensee and Seegrid or a Seegrid authorized reseller. Licensee acknowledges that it is receiving only a limited license to use the Software and is not receiving any other right to use any other intellectual property right in the Software and that Seegrid retains all rights and title in and to the Software including in the algorithms, concepts, design, and ideas incorporated therein. Licensee shall limit access to the Software to its authorized employees and agents. Licensee shall advise such employees and agents of the terms of this License and shall take all necessary steps to ensure compliance with this License by such persons.

- b. **Copies.** Licensee may not copy or permit any other party to copy the Software except as required to operate the Software in connection with the applicable Seegrid or third-party hardware products acquired contemporaneously with the Software. If any Software is delivered as a virtual machine to be executed on computing hardware owned and operated by Licensee, such Software may be copied by Licensee for backup purposes. If Licensee runs a virtualization farm with multiple physical servers for such virtual machine Software, Licensee may increase the number of physical servers in the virtualization farm without notifying Seegrid. Licensee may not remove any copyright, trademark, or other notice or product identification from the Software and must reproduce and include all notices and product identification on any copies or backup of the Software.
- c. **Reverse Engineering; No Modifications.** Subject to any mandatory exceptions in applicable law, Licensee shall not decompile, disassemble, or reverse engineer or permit any other party to decompile, disassemble, or reverse engineer all or any part of the Software or attempt to do so. Licensee shall not modify, or attempt to modify, the Software, nor shall allow the Software to be used on any hardware other than the applicable Seegrid or third-party hardware products acquired contemporaneously with the Software. Licensee will not transfer the Software to any other person except as otherwise expressly permitted herein.

 - i. It will not make the Software available to any other party, by time-sharing or otherwise.
 - ii. It will not remove or permit to be removed any item included in the Software, including any notice placed by Seegrid indicating the confidential or proprietary nature thereof.
 - iii. It will not copy or duplicate or permit copying or duplication of the Software or any part thereof in violation of the restrictions herein.
 - iv. It will restrict all use of Seegrid Information to Licensee's internal business purposes and will not use any such information in any form for the purpose of creating or attempting to create or permitting others to create or attempt to create any product similar to the Software or any part thereof.
 - v. It will not attempt to access or permit any other party to attempt to access any Software source code, and It will take all necessary steps to assure that no attempts to access the source code are made by any employees or third parties.
 - vi. remains a trade secret.

- vii. It is responsible for all activity that occurs on its Seegrid account, whether initiated by It, by others on its behalf, or by any other means or manner.
- viii. It is liable for all damages caused by any individual obtaining access to the Software through Licensee or its Seegrid account(s).
- ix. It will indemnify, defend and hold Seegrid and Seegrid's authorized resellers (including their respective officers and directors) harmless from and against any loss, liability, damages, cost, or expenses of Seegrid and Seegrid's authorized resellers (including their respective officers and directors) at any time because of any claim, action, or proceeding arising out of the access to the Software or out of breach of this License by Licensee or by any individual or entity granted access through Licensee.
- x. Licensee will immediately notify Seegrid of any material violation of these terms by anyone granted access through Licensee. Upon Seegrid's request, Licensee shall promptly provide Seegrid with a list of all individuals granted access to the Software through Licensee.
- xi. Seegrid has the right to immediately terminate access granted to any individual through Licensee at any time, with or without cause.

4. Ownership, Derivative Works; Infringement

- a. **Ownership.** The Software is proprietary and confidential to Seegrid and its licensors, as applicable, and contains trade secrets thereof and is licensed hereunder and not sold. The Software is also subject to the intellectual property laws of the United States of America and may be subject to the intellectual property laws of foreign countries and under certain international treaties, conventions, and the like, and Seegrid reserves all available rights with respect thereto. Use, distribution, performance, transfer, printing, decompiling, or export of the software is strictly prohibited unless expressly otherwise permitted hereunder. In no event is Licensee authorized to take any action in relation to the Software that violates any applicable laws, agreements, or the terms hereof. Licensee shall not create or cause to be created any Derivative Works based on the Software. Under no circumstances will the Licensee be permitted to sell, sublicense, or otherwise profit from a sale or sublicense of the Software, or a Derivative Work. Licensee is and shall remain the sole and exclusive owner of all rights, title, and interest in and to Raw Data. Seegrid is and shall remain the sole and exclusive owner of all rights, title, and interest in and to Event Data. Licensee hereby irrevocably grants all such rights, licenses, and permissions in or relating to Raw Data as are necessary or useful to Seegrid to enforce this License and exercise Seegrid's rights, perform Seegrid's obligations, and debug, modify, improve, and enhance Seegrid products and services.
- b. **Feedback.** Any ideas, suggestions, guidance, or other feedback provided by Licensee to Seegrid about Seegrid products and services are collectively referred to as "Feedback." Licensee agrees that Seegrid shall own all Feedback. Licensee agrees that Seegrid may freely use and exploit all such Feedback without any restrictions, including to improve or enhance the Seegrid products and services. During the term of this License, Seegrid will defend at its expense any action brought against Licensee to the extent that it is based on a claim that the Software, when utilized by Licensee in compliance with this License and any Incorporating Agreement, constitutes direct infringement of any patent, copyright, or other proprietary right in the United States and Seegrid will pay all damages and costs finally awarded against Licensee in such action which are attributable to such claims, provided that Seegrid is promptly informed in writing and furnished a copy of each communication, notice or other action relating to the alleged infringement and is given authority, information, and assistance by Licensee (at Seegrid's expense) necessary to defend or settle such claim.

- c. **Infringement.** Should the Software become, or in Seegrid's opinion be likely to become, the subject of a claim of infringement of any patent, copyright, or other proprietary right in the United States, then Seegrid may at its option (i) procure for Licensee the right to use the Software free of any liability for such infringement, (ii) replace the Software with non-infringing substitutes otherwise complying substantially with all of the requirements of this License, or (iii) terminate this License and refund to Licensee (either directly or through an authorized Seegrid reseller) an equitable payment (after reasonable depreciation) based on the portion of the Software so infringing. Seegrid will not be obligated to defend or be liable for any costs and damages if the infringement arises out of Licensee's breach of this License, or any modification, alteration, or use of the Software in combination with other hardware, software, or equipment with which it was not intended to be combined. This section 4.c sets forth the entire liability and obligation of Seegrid and the sole and exclusive remedies for Licensee relating to infringement and for any losses related thereto.

Licensee warrants that it has all necessary approvals from any relevant personal data subjects and shall indemnify and hold Seegrid and Seegrid's authorized resellers harmless from any third-party claims, losses, or liabilities arising from or in connection with any processing of personal data under this License. Seegrid shall implement appropriate technical and organizational security measures for the processing of any of Licensee's personal data under this License, if applicable. Such measures shall be subject to an appropriate level of security having regard to the technical possibilities available, the implementation cost for such measures, the specific risks connected with the processing of the data in question, and the sensitivity level of the data in question. To fulfill Seegrid's contractual obligations to Licensee, Seegrid may transfer personal data for which Licensee is responsible to other Seegrid affiliates (or subcontractors) located in and outside of the country or countries in which Licensee operates.
