Your **Pick & Place** Partner

Your **Pick & Place** Partner

But what does it actually mean?

As your partner, we're not here to install and disappear, **we go all in**. We're **flexible** and **committed** to designing a solution that fits your **unique logistics facility**, and we'll stick around to smooth out any bumps along the way.

As a market leader in Europe, we believe your success and satisfaction go hand in hand with ours. With over **10 years** of in-house development and refinement of our products, we deliver flawless solutions that:

- Are deployed by experts and with support you can count on
- Integrate with your existing operations
- Future-proof your warehouse
- Tackle labor shortages
- Are built to last for decades of automation
- Accelerate your ROI

Unloads pallets, cages, and trolleys
Gentle handling
AI determines optimal cup config for parcel picking

What are our **customers** saying?

"The Smart Palletizer has brought us flexibility, helps us solve our employee shortages and improves the health of our employees."

Juan Banuelos - Regional Manager

"Installation was quick and easy, the Smart Palletizer is easy to use and an advantage is that it is able to stack open boxes."

Joseph Gilson - Production Manager

"The user-friendliness of the system played a large role in the decision making process."

Vincent Gal - Process Engineer
