Robotic Card Packaging System

Model: RWC-3-CP

- Start packaging on day one.
- Suitable for all card types.
- Up to 35000 card/h
- Up to 50 cards per box
- Operator friendly UI

3D Rendering

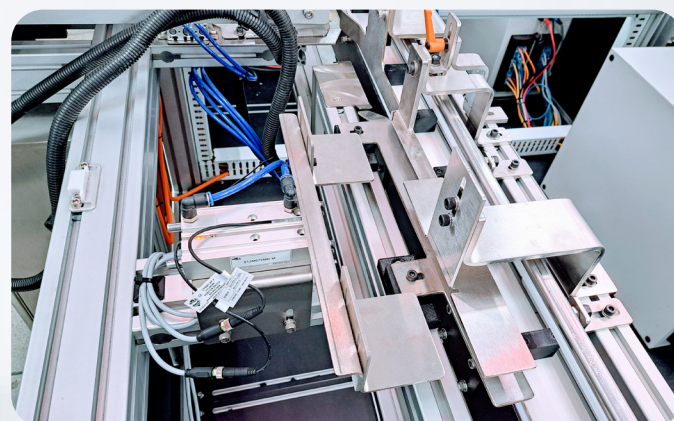

Robotic box feeding and erecting

Convenient operator access

Easy to adjust feed magazine

Easy to adjust fold and tuck mechanism

Includes

Static Label Applicator

Optional:
GraphTech
Print Head

VDP Label Applicator

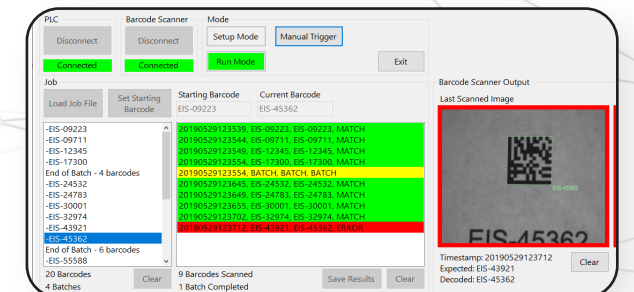

Optional:
GraphTech
Print Head

High speed batch accumulation

Data Management and Verification

Servo Controlled indexing conveyor
