ALTA Platform[®]

Redefining Patient Transfers & Transport

Automating Patient Transfers: A New Standard of Care

Healthcare Facilities

Improve staff retention, enabling staff to focus on higher value tasks and optimize workflows to gain clinical efficiency.

Front-line Staff

Eliminate a common cause of injury while enabling staff to conduct transfers efficiently and safely on

Patients

ALTA maximizes comfort while preserving the integrity of delicate skin and tissue, resulting in safe and dignified transfers.

Effortless Transfers

The ALTA Platform® leverages an array of electronic activators and sensors to deliver **safe** and **effortless** transfers. Operators can control the device from the front or back, while being able to transfer the patient from either side.

Dual Sided Transfer

Automated Surface Finding

Safety & Intelligence

Equipped with an array of **sensors**, the ALTA ensures utmost safety, while being **easy-to-use**.

Haptic-enabled Handlebars

Smart Safety Rails

Intelligent Collision Avoidance

Intelligent Patient Detection

Smart Interactive Display

Intelligent Surface Detection

Smart Foot Pedals

Data & Connectivity

The ALTA Platform® can transmit device status and utilization data to the cloud, giving facilities **key insights into crucial workflows**.

Clean Status

Foot Brake Status

Safety Rail Status

Battery Status

Interactive Display

ALTA's user-friendly graphical interface **communicates device status** and monitors safety systems.

SmartMoov™

The ALTA is equipped with powered driving capability that allows for effortless transportation. The SmartMoov feature set combines precision with power while allowing for fine-movement through tight spaces.

Zero Turn Radius

Powered turning allows for easy positioning and maneuverability

Powered Drive

Sensitive-steering allows for smooth, effortless driving and control

Strafing

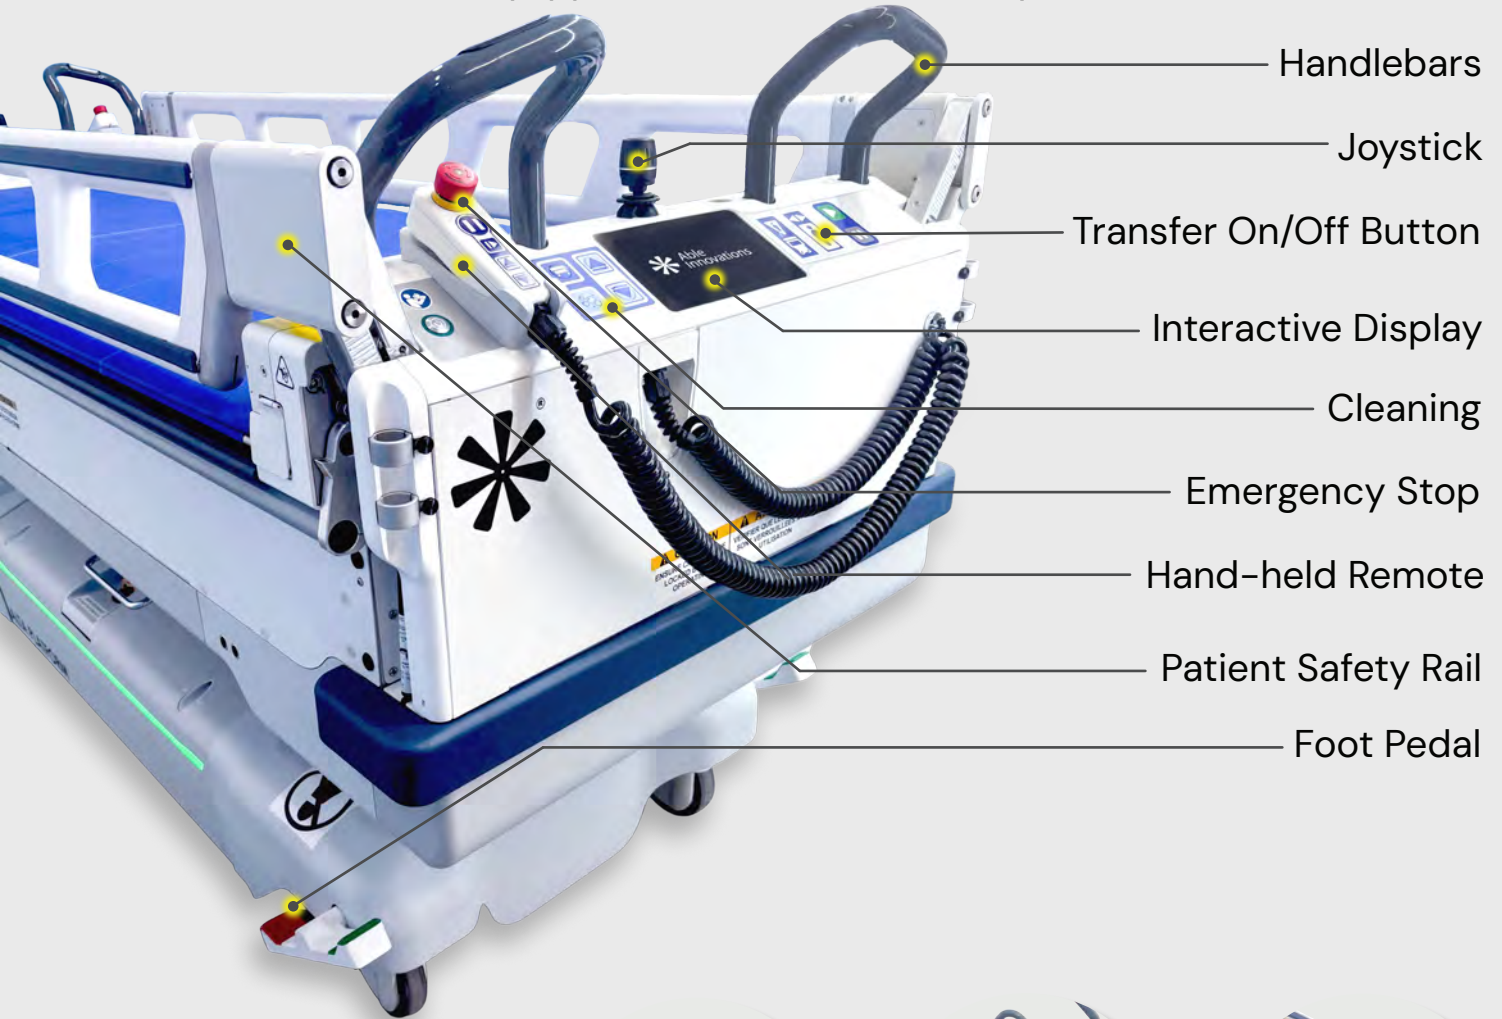

Powered side-to-side motion allows for precise alignment

ALTA Controls

The ALTA Platform® is equipped with intuitive and easy-to-use controls.

IV Pole

O2 Tank

Mounting Hooks

ALTA Standard Specifications

Patient Surface Length	74" (188 cm)	Battery Life	70 transfers*
Overall Length	88" (223 cm)	Transfer Height (Low)	30.5" (77 cm)
Stowable Width	32" (82 cm)	Transfer Height (High)	39.3" (100 cm)
Stroke/Reach	27" (68 cm)	Weight Capacity	352 lbs (160 Kg)

Varies depending on SmartMoov utilization
