

GAUSIUM LEAVES

We reinvented sustainable chemicals.

Gausium Leaves deliver a concentrated triple-action cleaning performance while being 100% free from microplastics, nanoplastics, and fossil-based polymers such as PVOH (Polyvinyl Alcohol)—eliminating single-use plastic waste. Made with a patented, water-soluble seaweed cellulose that fully degrades, they offer a sustainable solution that makes dosing easier—and healthier for now and for the future.

One Gausium Leaf produces 2.3 liters of concentrated detergent. Simply place one Leaf into the detergent container of Scrubber 50 or Omnie, or into a 2-liter dosing bottle for Phantas. Use two Leaves for Scrubber 75. Fill with water, set the dilution rate to a maximum of 1–2%, and you're ready to go!

While our Leaves are clearly a safer alternative to liquid concentrates, we still recommend using protective gloves and eye protection when dosing to avoid any potential harm. Please refer to the Safety Data Sheet (SDS) available at [gausium.com](https://www.gausium.com) for more information.

Scientists worldwide have warned that Micro- and Nano-plastics pose a serious health risk and may contribute to various diseases. Studies also show that PVOH only biodegrades under very specific conditions and can be difficult to be removed from wastewater.

Gausium Leaves contain no Micro and Nano-plastics or the fossil-based PVOH. Instead, they are made with patented, water-soluble seaweed cellulose that fully degrades. Eliminating the need for single-use plastics in alignment with EU regulations.

Gausium Leaves®

- ✓ Excellent and safe cleaning (pH 6.8), effective on all water-resistant hard floors and joints. Specially formulated for safe use in our robots—minimizing user handling and enhancing both user safety and environmental protection.
- ✓ Lowest cost in use, with reduced carbon emissions and 50 times less weight and volume.
- ✓ PVA-free, microplastic-free, and 100% biodegradable, featuring a unique, patented seaweed-based binding technology.
- ✓ Contains probiotic bacteria to eliminate residue in tile floor joints and neutralize odors in wastewater tanks.
- ✓ Ideal for all sectors, including retail, healthcare, institutions, industry, logistics, and more.
- ✓ Enables accurate dosing with Gausium robots, with or without dosing equipment.
- ✓ One super-concentrated Leaf produces 2.3 liters of concentrate, which can be diluted to 1-2% for use. A carton of 25 Leaves yields up to 5,775 liters of cleaning solution.

Floor Cleaner

Contains: octyl alcohol, ethoxylated; alcohols, C9-11-iso-, C10-rich, ethoxylated.

Danger

Causes skin irritation.
Causes serious eye damage.

Contains 1,2-benzisothiazol-3(2H)-one.
May produce an allergic reaction.

Keep out of reach of children.

IF IN EYES: Rinse cautiously with water for several minutes. If eye irritation persists: Get medical attention. If skin irritation occurs: Get medical attention. Dispose of contents/container in accordance with local/national regulation. Contains: anionic surfactant 15-30%, anionic surfactant 5-15%, benzisothiazolinone (preservative). Instructions for use: See the top of this packaging

Quantity 25 Leaves in this Packaging
