

IDEAL APPLICATIONS

High-volume cookie and biscuit decoration

Two color designs for branded or seasonal SKUs

Outline + flood workflows (single pass)

FEATURES

Two extruders (2-color or outline + flood in one scan)

Simple design creation software

Compact footprint — minimal increase over CDL-1

Single-color mode for simple, high-speed runs

BeeHex Vision: Patented system detects size, shape, location & topography for human-like decoration capability

KEY BENEFITS

Increase throughput without added labor

Reduce reliance on skilled decorators while maintaining consistency

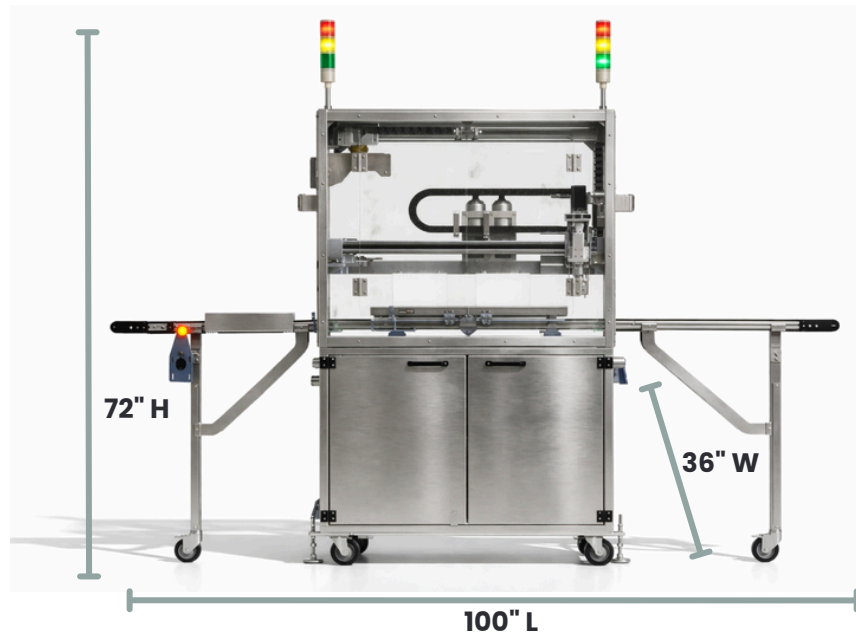

Flexible production — switch between 1 or 2 colors instantly

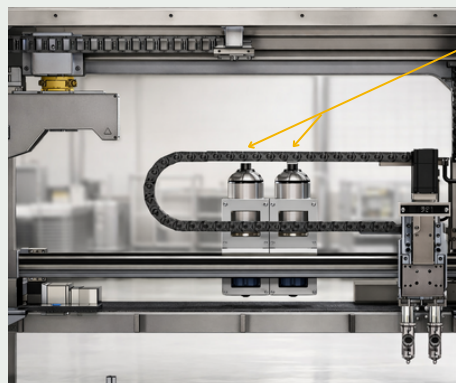

Scale production with a low-risk entry into automation

BEEHEX CDL-2

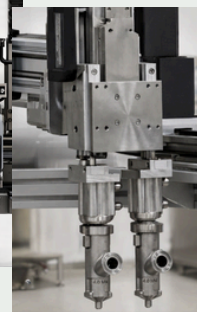

Compact Decorating Line

TECHNOLOGY ZOOMED IN

2 Cartridges for different colors or consistencies

2 nozzles with **smart flow** technology to stop and start flow intuitively. Multiple nozzle styles and sizes available upon request.

PERFORMANCE

Throughput: Up to 500 per hour (dependent on design size and style)

Cycle Time: ~7–36 seconds per product

Operaton Mode: Continuous conveyor-based flow

Staffing: 1 operator for loading/unloading + oversight
