

BEEHEX

CDL-DuoMotion

Dual Color Extrusion

IDEAL APPLICATIONS

High-volume decoration with 2 colors simultaneously

When two colors need to be side-by-side

Borders on cakes or cookies

FEATURES

Dual-color extruder (2 colors side-by-side)

Simple design creation software

Compact footprint — minimal increase over CDL-1

Rotating extrusion allows for human-like application

BeeHex Vision: Patented system detects size, shape, location & topography for human-like decoration capability

KEY BENEFITS

Increase throughput without added labor

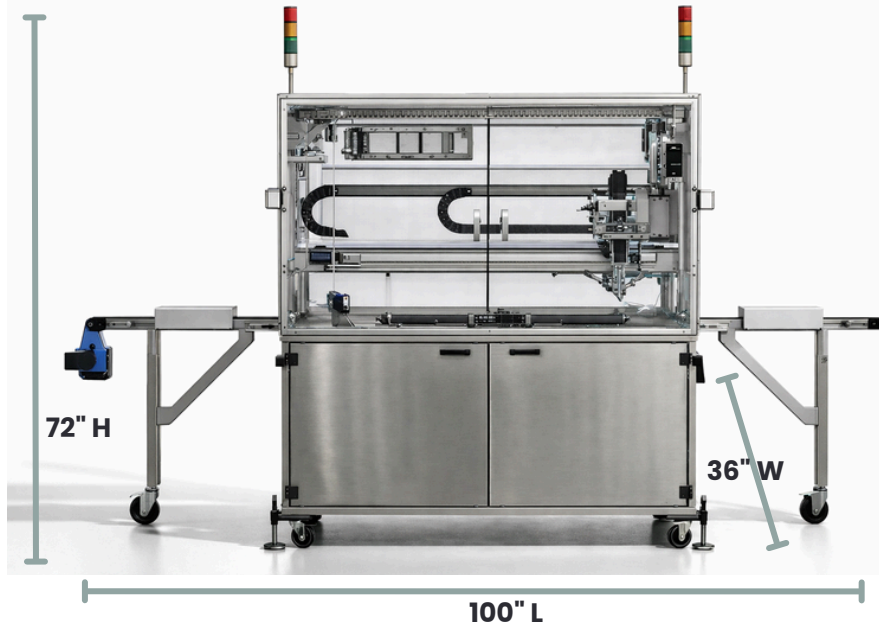

Reduce reliance on skilled decorators while maintaining consistency

Two high-volume pumps for 2 color icing application

Scale production with a low-risk entry into automation

TECHNOLOGY ZOOMED IN

Two separate intakes to feed 2 colors for simultaneous dual color application

Actual photos of real products

PERFORMANCE

Throughput: Up to 500 per hour (dependent on design size and style)

Cycle Time: ~7–36 seconds per product

Operaton Mode: Continuous conveyor-based flow

Staffing: 1 operator for loading/unloading + oversight
