

iA SmartPod

The next evolution of high volume pharmacy fulfillment.

iA SmartPod was designed to grow along with your business. Created for pharmacy providers who are ready to transition

prescription filling to a central fill or mail order facility, iA SmartPod leverages iA's proprietary pharmacy fulfillment software, NEXiA, to maximize system performance.

iA SmartPod Benefits:

Prescription Management

Fulfills prescriptions with accuracy and speed, tracking the entire process through a comprehensive and customizable dashboard powered by NEXiA.

Increased Capabilities

Easily allows for changes in product mix or volume, as businesses evolve.

Fully Contained

Labeling, filling, and imaging all done within iA SmartPod, reducing the chance of cross contamination.

Scalable Design

With the capability to expand from the baseline two-cabinet configuration, iA SmartPod can expand to a six-cabinet configuration meeting customer needs, without requiring an entirely new robot or set up.

iA SmartPod feature iA SmartDispensers, independent, smart devices that can be configured to store, count, and dispense virtually any tablet and capsule for maximized efficiency and accuracy.

Unleash the full potential of pharmacy

Powered by NEXiA software.

NEXiA is the technological foundation of our pharmacy automated fulfillment solutions, connecting many aspects of the prescription fulfillment process – from prescription acceptance to delivery across many different touchpoints. NEXiA manages prescription fulfillment, while continuously processing prescription orders in real time, evaluating constraints and preparing orders to ensure prescriptions reach patients with optimal speed and efficiency.

iA SmartPod Features:

- Operates at 300 bottles per hour* and features self-contained labeling, filling, and imaging
- Incorporates up to 80 iA SmartDispensers which provide continuous self-calibration with real-time adjusting to account for changes in environment or pill behavior
- Expansion module increases capacity to 240 iA SmartDispensers
- Supports a mixed configuration of ½L and 2L canister options to meet unique inventory needs
- Integrates with other high-volume distribution solutions
- Can accommodate multiple bottle sizes simultaneously
- Tracks medication inventory to improve inventory management and provide real-time data to make informed decisions

* Based on performance in test lab and adjusted to account for expected interruptions in operations.

Specifications:

- **2 Cabinet Configuration:**
6'2"L x 7'1"W x 8'8"H
- **6 Cabinet Configuration:**
9'3"L x 7'6"W x 8'8"H

Includes
**iA SmartDispensers
and Canisters**
