

iA Cabinets

The foundation of iA's dispensing products for pharmacy automation.

iA Cabinets, powered by NEXiA software, allow pharmacies to simultaneously count and auto-calibrate orders, maximizing productivity to align with prescription volume.

All iA Cabinet solutions are compact, scaleable, and customizable, with continuous calibration, to optimize fulfillment processes for cost- and time-saving benefits. Designed to grow as pharmacies grow, iA Cabinets can integrate into existing and new facilities with minimized renovations and operational disruption.

iA Cabinets Benefits:

Compact

Features small counting device-to-space ratio.

Scalable

Meets the needs of pharmacies where they are now and as they grow.

Efficient

With simultaneous order counting and auto-calibration.

Accurate

Workflow and barcode driven protocols managed by NEXiA.

Flexible

Configurations for 40 to 50 counting devices per cabinet.

iA Cabinets feature iA SmartDispensers, independent, smart devices that can be configured to store, count, and dispense virtually any tablet and capsule for maximized efficiency and accuracy.

Unleash the full potential of pharmacy
