

WE'RE BIG ON **AUTOMATION**

STATE OF THE ART **SOLUTIONS FOR EXISTING** **OR NEW INSTALLATIONS**

Inherent **flexibility, reliability & productivity** that accompany truly innovative automated robotic systems from **Middleby Bakery**.

*Smarter and better
connected solutions
for easy operation.*

DESIGN FOR TODAY

Increase productivity
while reducing personnel
costs.

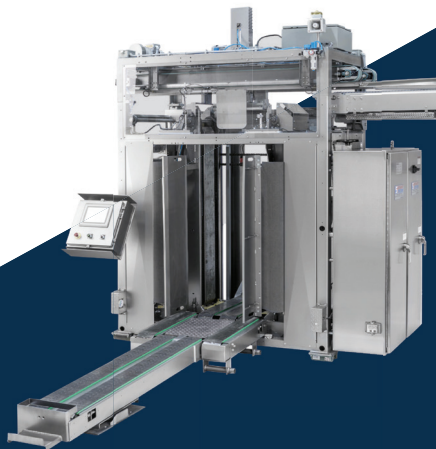

Favorable ROI
Reassign 1 person / shift
= 3 per 24 hour period.

Remove personnel from
ergonomically unfavorable
tasks.

AUTOMATED PAN HANDLING RACK N STACK SYSTEM WITH LASER GUIDED VEHICLES

Stewart Systems new Rack N Stack technology integrates our industry leading pan stacking and unstacking expertise with our Laser Guided Vehicles (LGV) for a custom designed pan handling solution for every bakery application.

The new innovative Rack N Stack design provides a unique modular solution that is flexible and expandable for pan storage and retrieval.

- ① *Reduces pan wear & damage*
- ② *Reliable and efficient*
- ③ *Maintenance friendly*
- ④ *Minimal installation time*
- ⑤ *Fully automated*

- ▶ Custom engineered for each application
- ▶ Handles multiple production lines
- ▶ Operates on-demand to satisfy production line requirements
- ▶ Facilitates manual pan handling with forklifts
- ▶ Automatically tracks inventory
- ▶ Pan tracking provides uniform pan wear for all varieties
- ▶ Maximizes cube space for pan storage
- ▶ Easily adjusted pan storage and retrieval solutions
