UniGym All-in-One Home Gym System

Product Introduction

UniGym All-in-One Home Gym System is the world's first device covering hand, upper, and lower limb rehabilitation. With modular design, it supports 10+ exercises for fine and gross motor skills, featuring 3 training modules and 5 accessories. Lightweight and portable, its electric suction cup allows secure use on any surface. Paired with a smart app, UniGym offers 4 training modes, personalized plans, real-time adjustments, video tutorials, engaging games, and detailed reports for complete home exercise.
