- Durable Materials
- Powder Coated or Nickel Plated

Profit Minded Features

- Weighs 510 lbs*
- Only 19.75" wide*
- 4-Wheel Drive Traction
- 2-Speed Efficiency

What customers are saying...

"Our production increased 10%. We replaced our cart-style boar mover with a Boar Bot and our boars are more active and producing better. It's a great machine!"

- Mike Maendel - Oak Bluff Colony

What the research says...

"On large farms making 250 services per week - labor savings were calculated at 15-20 weeks of man-hours per year. The savings may be in not having to fill the lower skilled positions or preferably, better utilization of more skilled personnel."

- David Bishop, Ph.D - Reproductive Consultant in North Carolina

Study results came from Over 2500 matings with two crews documenting for each style to get the aforementioned results.
